

VRAILLE

~English guide~

NOTE : This is an adaptation of the French version of Vraille. It is not optimized for english.

Vraille is an alphabet crafted to represent sounds rather than letters.
Each symbol corresponds to a specific English phoneme.

Exemples:

for : kilo :

cash : heard :

The cat eats the mouse :

- Long vowels like 'ɑ:' or 'ɔ:' can be achieved by doubling them.
- For diphthongs like 'aɪ', 'aʊ' or 'ʊə', simply place the two vowel symbols in sequence.
- 'x' can replace 'ks'.
